

SPORTS—LOCAL AND TELEGRAPHIC.

CUBS WINNERS FROM TIGERS.

CLAWS ARE PULLED.

Rossman's Hitting Is Feature of Indifferent Game.

Tinker, Kling and O'Leary Are Fielding Marvels.

CHICAGO, Oct. 1.—The Chicago National League team defeated the Detroit Tigers in the second game of the series for the world's championship this afternoon, by the score of 3 to 1.

Slow pitching and several slight accidents caused the contest to last more than two hours, the delay trying the patience of the big crowd, which again filled almost every inch of seating room.

After the first four and a half innings had dragged through an hour and a half, some sparkling fielding, the base running, and sharp hitting hastened the game to an end.

Mullin and Pfeister were the pitchers and Thorne behind the bat in place of Schmidt. Otherwise the teams lined up as on the previous day. Schmidt's retirement was due primarily to his inaccurate throwing, but the change brought much improvement as the five stolen bases credited to the local team testify. Playing conditions were improved, the crowd numbering 21,000, as against over 34,000 yesterday, while warm sunshine and the absence of the chilly breeze of the first day kept spectators and players in much better mood. What with these blows across the diamond aided the play more than it hindered it.

ROSSMAN'S HITTING. Rossman, whose hitting was the real feature of the game, scored the first run in the second inning. He hit a grounder toward Tinker, which bounded away from the pitcher and rolled far out to the left fielder, Rossman making third on the hit. Coughlin struck out, but Pfeister fired a short fly to left field, which Tinker caught and got, but left it to Sheppard. The ball fell, and Rossman scored. Payne stole second, but O'Leary and Mullin could not bring him home.

Chicago tied the score in its half of the same inning, while Mullin was giving a queer exhibition of poor and wild pitching. Kling, Evers and Schulte singled, while Tinker, hitting the bases with none out. Then Tinker drew a base on balls, forcing Kling home. Right now Mullin suddenly regained control of his curves, striking out Pfeister and Stagle, while the best Sheppard could do was a puny grounder to Schaefer.

In each of the next three innings Detroit batters reached first base with some ease, but poor base running and inability of the following batters to find openings in the Chicago defense stopped the embryonic rallies. Chicago missed a similar chance in the third, when a double play and a strike-out left runners on first and third. The winning runs came in the fourth.

Tinker's hit bounded off Mullin's glove. He went to second on a sacrifice, and stole third. O'Leary fumbled Stagle's grounder. Tinker scoring, single, stole second, and gave the lead of the way home on Sheppard's two-base hit. After Chance had "popped" out, Sheppard was caught trying to steal third.

FAST FIELDING. After that fast fielding prevented further scoring on either side, O'Leary out of two hits by marvellous stops and throws to left, and Tinker, who was the fastest in the sixth, Sheppard caught a line drive off his show-puts in the seventh, and three Detroit runners who reached first base were cut down by Kling's fly throwing.

THREE TO ONE. AND AFTER MORE.

FAVORITE IS DISTANCED.

GENERAL WATTS WINS KENTUCKY FUTURITY.

LEXINGTON (Ky.), Oct. 1.—(Exclusive Dispatch.) In the presence of 20,000 persons, General Watts, 2:04 1/2, a son of Axworthy, and owned by Gen. C. C. Watts of Charleston, W. Va., won the Kentucky Futurity, worth \$14,000, the richest event of the light-harness turf.

General Watts won all three heats from a good field. Kentucky Todd, the favorite, was easily distanced, the only time he came near being in the money being when he finished second in the second heat.

In the Tennessee stake, which inaugurated the thirty-fifth annual meeting of the Kentucky Trotting Horse Breeders' Association, General Watts and her driver, Sanderson, was thrown over into the track, but escaped injury.

THIRTEEN-INNING FIGHT. OAKLAND FINALLY WINS. (BY DIRECT WIRE TO THE TIMES.) SAN FRANCISCO, Oct. 1.—(Exclusive Dispatch.) That old story about Oakland quitting doesn't go any more. Three times they came up from behind, today, twice to tie the score, and in the last of the thirteenth inning, Egan was on hand with the healthy single that ended the affair and banished the hopes of the Seals, 7 to 6.

It was the one earned run of the afternoon, when Egan drove Hogan around the bases just after the sun had clambered down behind Twin Peaks, and he was a lucky thing for the Athletics. Another man out and the Bulls Perrine would have been compelled to call the game on account of darkness.

It was Strieb who gave the game away when the Seals had it nicely in line in the eleventh. The youngster was over-enthusiastic, and he elevated the ball down to Nick Williams in a disgusting fashion. That piece of disgusting play gave the Commuters the score that they were to have, and they bided their time until the thirteenth, when they might have made it a double.

Ralph Willis pitched the final, his secured off his delivery show how he was anything else but a weak, when it was up to him to keep a stiff upper lip.

Ramona Park ALTHOUSE

Special Opportunity Now! Read About It, Know About It; Go Out There

\$50 Cash and Then \$15 Monthly

—buys you a home site in Ramona Park.

A San Gabriel Valley home site—surrounded by costly improvements for \$50 cash and the balance in \$15 monthly installments.

Where under Southern California's sunny skies can you duplicate offer?

Positively nowhere! 7c car fare and only 20 minutes from down town—best car service in the area, too!

A home at Ramona Park means CONTENTMENT from every dental standpoint.

Go out today or tomorrow or some day soon. Get free tickets at our office. We have an agent on the tract all the time ready to show you around.

YOU'RE WELCOME

Make The "SUN" Your Down Town Headquarters

Four of the "Sun's" eight big stores are located right in the very heart of the business district. These stores welcome you. In each you'll find home phones, and other conveniences which will be appreciated by the driver.

Make the "Sun" your headquarters—we ask nothing in return.

KELLY'S COMPLETE CATARRH CURE FOR CONVALESCENTS LAUX'S RUSSIAN KUMYSS

Kelly's Catarrh Cure includes the essential elements for internal and external treatment, which we believe to be the very best for catarrh. Outfit includes pessary, liquid, ointment, lozenges, and nasal douche. Bought separately would cost you \$3.75. "Sun" price \$3.00.

For throat coughs and hoarseness in the throat we recommend Menthylough Cure. It has stood the test for eleven years and continues to cure. 25c and 50c sizes.

ELECTROPODES The use of electropodes gives a mild, soothing flow of electricity through the entire day. We sign a contract with each sale of electropodes, agreeing to refund the money if they fail to cure rheumatism in any form. At any of our stores, or by mail, \$1.00.

FOR RHEUMATISM LAUX'S URICOL If you have rheumatism or any disease caused by uric acid you will find Uricol a sure specific. No harm whatever is done the heart or stomach from its use. Contains no opiates—cures by dissolving and removing uric acid from the system. \$1.00 size for \$5.00.

PLAN NORTHERN TRIP. U.S.C. Basketball Manager Arranges Dates With Oregon, Utah, and Colorado.

U.S.C. basketball players are to meet for the first practice of the season this afternoon, at the university gymnasium. Early practice has been decided upon in order to get a good team in shape for a proposed tour of California, Oregon and the Rocky Mountain States in December.

Dates for games with the University teams on the Coast will be arranged as soon as possible, and the team expects to play California, the University of the Pacific, Oregon, Washington, Utah, Colorado, Colorado School of Mines and the Colorado and Utah Aggies.

Practice games with L. A. High and Polytechnic will be started, and the men trying for the basketball five will be required to keep training rules, beginning today.

The only dates which have been definitely secured are Oregon University, December 6 and 7; Washington, December 9 and 10; Colorado Aggies, December 14 and 15.

The men who have signed their intention to play include Osborne, of last year's Whittier five, conceded to be about the best forward in the State, with the exception of Lamar, of St. Vincent's; "Spider" Folsom, the former crack S.V.C. center, who stands six feet two inches in the stocking feet, will be out for center on the university team, this season. Osborne and Folsom were picked for positions on the all star team last season by the southern coaches.

The other forward position will, in all probability, be taken care of by "Shorty" Reid, of the Chicago, I.C.A. Reid stands a trifle over six feet three inches and tips the beam in the neighborhood of 250 pounds. He was slated for center on the football squad but he entered school too late to participate in this branch. Candidates for guard are more than plentiful. Almy, of Santa Monica High School, and Best, from the law department, are leading candidates.

ONE WESTERNER REMAINS. Miss Alana of Westward Ho Defends Honor of West in Women's Golf Match.

(BY THE ASSOCIATED PRESS—P.M.) CHICAGO, Oct. 1.—Miss Alana, of Westward Ho, is the only woman western golfer remaining in the competition for the women's championship, which is being played on the links of the Chicago Golf Club.

Miss Adams, of Westward Ho, defeated Miss Painter, Calumet, 1 up and 1 to play.

Miss Phillips, Springfield, Mass., defeated Miss Huston, Allegheny, 4 up and 2 to play.

Miss Curtis, Essex, defeated Miss Martin, Chicago, 4 up and 2 to play.

Miss Margaret Curtis defeated Miss Steele, Homewood, 3 up and 7 to play.

Miss Margery Phillips, Braintree, defeated Miss Pauline McKay, Oakland, 3 up and 3 to play.

Miss E. Young, Calumet, 4 up and 3 to play.

Mrs. R. H. Barlow, Marion, defeated Miss Holmes, Midlothian, 1 up and 4 to play.

GREAT OUTPUT OF NEW AUTOS.

(BY THE ASSOCIATED PRESS—P.M.) NEW YORK, Oct. 1.—The output of automobiles for 1936 is expected to be 35,000 cars, against 45,000 made this year.

These figures, which are said to be a conservative estimate, have been announced by the management of the American Motor Car Association, whose members will be exhibitors in the Grand Central Palace Show, beginning October 24.

TO PLANT TROUT STREAM. San Gabriel Canon is to be stocked with 50,000 trout, which will be put in the river under the direction of R. M. Follows, State Fish Commissioner. Because of the lateness in the season, the trout are larger than the usual minnow, and it is expected that the greater part of them will survive for the spring fishing.

For Sallow Skin and Liver Spots. Take a Live Skin at Bottom.

Senators School Wins Game. The Senators school eleven defeated the Grand-avenue school by a score of 10 to 2, yesterday afternoon, at Eleventh and Flower. St. Johns, quarterback of the Senators team, was the best player, and his tackling saved the game for his school. Grand-avenue's star player was Grant. The Senators team will play Freshman-Union at the same address.

Football Team Faces Crisis. When is he a man? Football team faces crisis. Football players in danger of meeting older men.

THE LOOLOOS USE THEIR GUM BOOTS.

Portland, 4; Los Angeles, 1.

After the twelve-inning tie in Chicago, Tuesday night, the 10 to 1 favorite Los Angeles, the performance at Chavez Park, yesterday, was about as quiet as the one and the gentlemen's convention, when the president asks if the teams had given full weight during the month previous.

One could almost hear the silence, and it was hardly stirred when the Los Angeles Looleos were tagging along behind and counting on their fingers the month previous.

There were no sensational plays to entice over, and all the hard swats were made by the other fellows. Some of the local players, with gum boots on, and these added to the solemnity of the occasion. The fat boy, Per-noli, seemed to have it on the team in pitching the right kind of ball at the right time, and there was little use in trying to beat him as he was yesterday.

McCredie changed his line-up and batting order to switch his luck, and it certainly worked. He came in from right field and went on second base, and from there he played one would think he is the man who invented second base. He had three outs and four assists without an error and hit out a triple and a single in five times at bat, scoring the first run for his side with his triple.

Burns did very well, and was no worse than Per-noli in the first half, but those off Bill seemed to count, and Portland won because those hard hits came in. The local made their only run on Brahear's pass, Ellis's drive to center, and Delmas's out at first. When Delmas hit the ball, Brahear sprang from second to the plate. Johnson nudged the grounder a moment, and then threw Del out at first. Kennedy nudged the grounder a moment, and then threw Del out at first. Kennedy nudged the grounder a moment, and then threw Del out at first.

THE CITY IN BRIEF

NEWS AND BUSINESS.

Young W.C.T.U.

The young women's branch of the W.C.T.U. will give a musical and literary program this afternoon at 2 o'clock in the First Methodist Church.

Victoria Mar Bankrupt. Victoria Mar Bankrupt. Victoria Mar Bankrupt.

The funeral of the late Col. Charles B. Banta, U.S.A. (retired), will be held at 2 o'clock tomorrow afternoon at the residence, No. 2821 South Flower street, and interment will be at Hollywood Cemetery.

University Club Banquet. The University Club will hold a banquet this evening at the clubhouse. The chief speaker of the evening will be Russ Avery, who will deliver a talk on his recent trip through the Sierra Nevada Mountains with the Sierra Club. He will illustrate his talk with stereoscopic slides.

Wednesday Morning Club. Members of the Wednesday Morning Club will give an autumn home day tomorrow afternoon and evening at Conant Hall. The feature of the afternoon will be a baby show. Many beautiful prizes will be given. In the evening, Indian war dances and a vaudeville show will be among the attractions.

Bradstreet Change. E. H. Hitchcock, local manager of the Bradstreet Company, has resigned to take the presidency of the California Coast Lumber Company of this city. He has been succeeded by E. R. Purdy, an experienced Bradstreet man, who formerly had charge of the Bradstreet office at Vancouver, B. C., and Tacoma, Wash.

Bible League Meeting. The annual meeting of the Southern California Bible League will be held in the Presbyterian Church tomorrow afternoon at 2 o'clock. An address will be delivered by Rev. George S. Banta of London, reports will be heard and officers elected. Dr. J. A. Gordon is president of the league, and all friends of the Bible are invited to attend the meeting.

Improvement Association Meets. The Southwest Improvement Association held a meeting at Forty-eighth street and Vermont avenue last night to consider the project of opening Agricultural Park as a public playground. Ralph Sullivan addressed the meeting and urged upon those present the necessity for prompt action. The two petitions, one asking the Supreme Court to have its decision in the matter and the other asking Gov. Gillett to reappoint Messrs. Murdoch and Reynolds as members of the Agricultural Association, were signed by all members present.

Turned Down. The Merchants' and Manufacturers' Association refused very decidedly, yesterday, to endorse a scheme proposed by two young men from Denver who are operating under the name of the Merchants' Enterprise Association. Their plan is to secure contracts from merchants which would bind business men to give a 5 per cent. discount to all holders of tickets which the promoters propose to sell for \$1 each. "The plan may benefit the promoters," said Secretary Zechendorf, "but it would fail to see what possible good it would do the merchants. It would be far better to put that 5 per cent. into additional advertising in the daily papers."

Gift to Deputy Auditor. Deputy County Auditor George W. Smith was surprised last night at his home, No. 58 East Adams street, and presented with an elegant set of parlor furniture by employees in his office, and others. Those present were County Treasurer John N. Hunt and wife, Robert F. Hayhurst and wife, A. T. Heaton, D. Lee Regan, Frank E. Middleton, James A. Slater and wife, William R. Slater, A. I. Sawyer and wife, J. E. Hunsicker and wife, Jerome F. Muller, R. S. Sparks and wife, J. W. Goodhue and wife, Mrs. Nellie Loomis, Mrs. Louis Dinkler, Miss L. Maude Hall, J. D. Ross, Leon Levy, Miss Louise Williams, E. C. Overholzer and Robert Dominguez.

BREVITIES.

British subjects are requested to send their addresses to the undersigned. British-born persons owning property in California are advised to execute wills appointing resident executors. Forms gratis on application, C. White Mortimer, British Vice-Consul.

J. W. Frey has moved his stock of mountain, grain, tile and sundries to his warehouse, corner Los Angeles and Twelfth streets, where can be seen the largest assortment of black and brown flannel trimmings to be found in the United States.

SUGAR FOLLOWS FLOUR'S TRAIL.

YESTERDAY'S ADVANCE IN PRICE TO BE DUPLICATED SOON.

Both Cane and Beet Varieties Move Costly—Advances Due to Increased Demand and Only Average Foreign Output—United States Depends to Large Extent on Imports.

Sugar has just been advanced 20 cents a barrel. Both the cane and beet varieties are affected. Wholesale dealers say the rise in price is due to an increased demand and to the fact that the output of Europe and South America is not more than the average. The United States is largely dependent on imports, producing only 40 per cent. of the sugar used within its borders.

The harvesting of the beet crop throughout the United States has just begun and indications point to a total yield of from 400,000 to 450,000 tons, against last season's crop of 422,000 tons. This decrease will have an appreciable effect on the market.

In Kansas, where the crop is three weeks late and lighter than last year's, the beet show better sugar contents. The Orizaba and Yucatan beets will average 22 per cent. of sugar.

Not only has the consumption increased in America, but reliable tables show that in Europe, from September 1 to July last, there was a net increase in consumption of 34,881 tons.

The total supply at present is 1,402,551 tons, a total decrease of 135,694 tons, as compared with last year's supply.

Nathan Cole, vice-president of the Pacific Sugar Company, says that this is the first of a series of advances. The next one will occur within a week, he thinks, and will probably be as great as the first one.

The retail buyer must now pay \$1.35, instead of \$1.25, for a twenty-pound sack of granulated sugar. In smaller quantities and special grades the increase will be a trifle more.

WAR FOR GOLD
ENDS IN DRAW.

Mining Suits for Big Sum
Settled Amicably.
Lycurgus Lindsey and Epes
Randolph Stop Fight.
Dispute Result of Sale of
Cananea Properties.

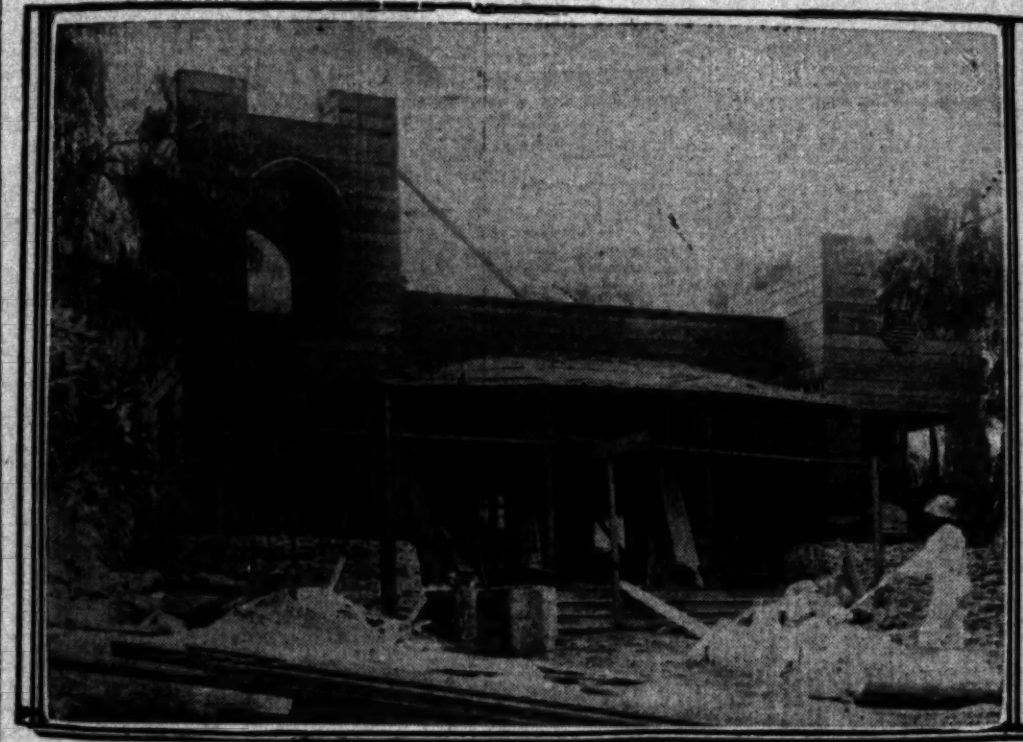

A settlement made out of court yesterday in Los Angeles has wiped out
numerous suits involving probably
half a million dollars, has ended a
legal dispute that promised interesting
disclosures and has brought peace
where war threatened among at least
two prominent men of the Southwest.
Col. Epes Randolph, railroad and mining
king of Arizona, and Lycurgus
Lindsey, a prominent mining man of
Los Angeles. Through the settlement,
Col. Randolph is to receive \$100,000,
and possibly more.

The case in this city was set for trial
in Judge Monroe's court, but has been
stricken from the docket. The same
action has been taken with similar
cases at Tucson and Tombstone, Ariz.
Boston and Duluth, Minn.

These suits grew out of the sale of
the Cananea Central mines to Thomas
F. Cole and his associates. Cole is one
of the copper kings, and, following his
purchase of the Cananea Central, came
the consolidation of that company with
the Greene-Cananea Company, forming
the Greene-Cananea Company, which
has a capitalization of \$80,000,000.

OWNERSHIP QUARREL
While the entire case is as complicated
as a puzzle-switch in a railroad
yard, the main point is that there was
a dispute between Col. Randolph and
Mr. Lindsey over the ownership of
several thousand shares of Cananea
Central stock, which at the time of
the sale was worth \$24 a share, and
the total amount involved was about
\$300,000.

MOST UNIQUE CHURCH IN LOS ANGELES IS GOING INTO NOTCH OF A HILL.

Dr. J. P. Widney has in course of construction on his own ground, at the
junction of Dayton avenue and Avenue
28, the most unique church in Los Angeles.
Being a man of means, and wishing
to direct his energy for the redemption
of men in his own way, he some years
ago, built a church at Ninth and Santa
fe streets, but business steadily
crowded about that section and made
it unsuitable for a church, and he decided
to seek a new location.

Dr. Widney is an orthodox minister
of the Methodist Episcopal church, but
has his own reasons for not wishing
to be located in the regular way, and
he proposed at the inception of his first
venture, to build his own church without
cost to any other person, providing
he would be appointed to its pastorate
and be permitted to control it as he
saw fit.

NIPS GEM IN PLAY,
DEATH IS PENALTY.

WITHIN ten feet of his dwelling
yesterday morning, Fred
E. Thompson, a well-known Los
Angeles lawyer, was "set" upon and a
four-carat diamond valued at \$1200
was taken from him by "fowl" means.
Thompson left the house to visit
the chicken pens. He is exceedingly
fond of poultry, dressed and undressed.
When he isn't telling jokes how absolutely
innocent his clients may be,
he is loafing around his chicken corral,
complimenting himself on the fact
that he is a great hen fancier. Here-
fore he would have indignantly de-
nied that he is a henpecked man, but
today he "feases" up.

Thompson went out to see how a
womanly old fowl was progressing
with a setting of eggs. She was a
mean old thing, with a particular an-
tipathy for Thompson. She had been
laying for him for some time. When
he entered the chicken yard she found
her chance to get even. The lawyer
wore a soft-boiled shirt, with a
magnificent white diamond headlight.
"Nice chickie," said Thompson, gen-
tly stroking her back with one hand,
and with the other reaching under the
living incubator to see how things
were coming on.

PERFORMANCE
IS BRILLIANT.

Milan Opera Company Gives
"Aida" Splendidly.
Principals Inspire Audience
With Enthusiasm.
Settings and Costumes of
Great Beauty.

BY JULIAN JOHNSON.
Just a little less than a year ago a
magnificent audience assembled at
the Auditorium inaugural to see a very
poor performance of "Aida," last night
an audience of much smaller proportions
saw a performance so infinitely
superior that it bars comparison.
The newly organized Lambardi com-
pany may be a new name, but absolutely
first class, if all the principals may be
judged by the group which appeared
last evening, and if the productions
which follow equal that of "Aida."
The local first night was different in
one respect from the same occasion in
San Francisco. The casts were identi-
cal, but in the north Pimasoni cap-
tured the greater share of attention,
while here the audience noted—and
very justly—the unusual evenness of
the cast, and the general superiority
of all the leaders. If individual honors
were shaded at all, the better division
went to Signorino, who sang Radames
in a truly splendid manner.
"Aida," as seen last night, should
"make" the season for the company,
for the people in the house were folk
whose words so far toward gathering
audiences, or warding them off.
The production was the best ever
given in this city by any company save
the Courtier aggregation, and even this
great organization, in its late years of
"public-be-damned" hurry, has given
us things greatly inferior.

Such attention to detail was scrup-
ulously to be expected in this organization.
The scenery is evidently new, and is
carried in ample quantities. From
the rear of the house the settings
were of ideal beauty. In costuming and
properties far more care has been
used than ever before.

The principals include Sig. Signorini,
as Radames; Signorina Gonzales, as
Aida; Signor Pimasoni, as Amnaro;
Signorina Pazzani, as Amneris; Sig.
Wolman, as Ramphis, and Sig. Mar-
ceri, as the king.
VOICE OF RARE BEAUTY.
Signorini is a man of very evident
stage experience, the careful work of
truly magnificent costuming, and a
consummate vocal artist. His voice is,
perhaps, a little past its prime, but it
is still a voice of rare beauty and
great effectiveness. The best thing I
can say about Signorini is that he
sings smoothly and evenly, without
visible physical effort, without chest-
heaviness, without sibilant breath ex-
plosions, and apparently with excel-
lent vocal technique. His voice is of
undoubted dramatic quality, warm,
full and rich into its middle register,
and while somewhat thin in its very
highest parts, is none the less sure
and absolutely unwavering. In fact,
third act, in which, upon a long-sung
Signorini's brilliant ending, he has
tained high note, he hands his sword
to Ramphis, evoked a din of tumultu-
ous applause. After some rearrange-
ment of the orchestra, this brief bit
was repeated—a very doubtful artistic
procedure, but very much of a
delight to the gallery. If Signorini
possesses much ability as an actor, it
remains to be proven, but judging
from his methods and accomplishments
last night, a great deal of pleasure
awaits his hearers during the rest of
the season.

I do not believe that Sig. Pimasoni,
who made such an astonishing triumph
on the San Francisco opening, was in
the best of voice last night. His brief
part in the somewhat thankless part
of Amnaro demonstrated dramatic
temperament and fine vocal technique,
coupled with a voice of size, power
and sympathetic quality, though lack-
ing in the range of a true soprano.

PUTS HEAD IN
TRUST'S MAW.

FRESNO BUTTER MAN TO MAKE
STRENUOUS CAMPAIGN.

Hopes to Lower Price of Yellow
Stuff and Win Housewife's Grati-
tude—His Creamery Can Supply
Three Thousand Pounds Daily and
Perhaps "Bust" Combine.

A. B. Evans, trust buster, has arrived.
Looking at the maw of the local
butter trust, which ground the poor
housewife out of another five-cent-a-
roll advance last Monday morning,
Evans has walked right into it, turned
around and walked right out again;
and he intends to do it several more
times this winter.

Mr. Evans hails from Fresno, and is
well known here among the baseball
sports as the manager of the Fresno
beast team in the Pacific Coast League
last year. This was only a side issue
with him, however. As a representative
business man of Fresno, he contrib-
uted, with others, to finance a nine.
Among other things, he is a Repub-
lican politician; manager of the Coast
Creamery, and president of the
San Joaquin Ice Company at Fresno.
He is a personal friend of Senator G.
W. Cartwright, and thus endowed,
through friendship, with the knowledge
of how to fight a trust. Having plenty
of butter and an ice plant of his own,
he has the practical means of "bust-
ing" the butter trust in this city.

Evans was here for two days, the
first of the week, to look over the
ground. Then he hurried back to
Fresno to make plans for fighting the
trust. If he wins in the contest, the
price of butter should drop about half
until the first of the new year. The
Coast Creamery now makes 3000 pounds
of butter daily, and can increase its
output if conditions justify it. Evans
is well known here among the com-
mission men, for he has supplied local
grocers with much butter, which was
put up under their own labels, and sold
at an advance over the "Poppy" brand
of the Coast Creamery, although these
fancy brands were nothing but "Pop-
py" butter.

The difficulty that an outside cream-
ery has in entering this market, ac-
cording to Evans, is that the Los An-
geles Creamery Company, which is the
"butter trust," appears to have some
sort of a "gentlemen's agreement"
with all the local wholesale jobbers, ex-
cept two.

The "trust" has recently gone into
Kings, Tulare, Fresno and other coun-
ties and contracted for from 8000 to
10,000 pounds of butter. Evans says,
with the idea of controlling the supply
and being able to raise prices at any
time. The advance of 5 cents a roll
shows the "trust" feels sure of its po-
sition.

It is understood that the "trust" is
capitalized at \$1,000,000, and that the
concerns in it took stock for their
plants. Evans was offered the same
kind of a proposition, but declined it,
and now proposes to enter this market
and fight.

HOMEOPATHIC DOCTORS HERE.
Nearly Hundred Members of Society
Gather in Seventeenth Annual
Convention.

The seventeenth annual meeting of
the Southern California Homeopathic
Medical Society was held in the pa-
lors of the Westminster yesterday.
Nearly 100 members and visiting phy-
sicians were present. Increasing in-
terest in the work of the society was
shown by the large number of applica-
tions for membership. Dr. F. S.
Barnard, the secretary, stated the
number of applications was the largest
received since the society was founded.

THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

The Mayor requested members of the Church Federation yesterday to join with himself, the Chief of Police and the police board in an executive conference to discuss proposed measures affecting the liquor traffic and the social evil.

The seven inspectors in the health department, whose jobs were recently abolished by a Council decision, are working to get a big petition from local physicians asking that they be retained; the Mayor intimates that he may veto the ordinance.

Charges of racial and unmanly conduct toward women visitors have been preferred against Foreman MacLean of Westlake Park.

Park Commissioners and city officials generally signed petitions yesterday asking the Governor to reappoint J. H. Reynolds and George R. Murdoch to places on the directorate of the Sixth District Agricultural Association; they are helping the city in its effort to secure control of Agricultural Park.

The Interstate Mining and Reduction Company is suing its organizers in the Superior Court, charging family "mismanagement" in corporation business.

Whether beer is "boon" is a burning question to be decided by Justice Stephens in the Flynn "blind-pig" trial.

Lawyer Danford is on preliminary examination before Justice Sumner, charged with subornation of perjury.

AT THE CITY HALL.

DEEP WOE FOR ROYAL ARCH.

MAYOR SEEKS MEETING WITH CHURCH FEDERATION.

Asks That Committee Be Named to Discuss With Chief Kern and Police Board Questions Affecting the Liquor Traffic and Social Evil. Liquor Licensees Too.

During a conference with members of the Church Federation in the executive office at the City Hall yesterday, Mayor Harper made a request that he might meet a committee from the federation for the purpose of discussing questions of sociology and criminology affecting the present administration and the social evil.

The Mayor asked that a day may be set when he can bring together a committee from the federation, the Chief of Police, and at least two Police Commissioners. At this meeting he desires to discuss questions affecting the liquor traffic and the social evil.

Last night the Mayor said that he hoped for this conference for the purpose of putting a stop to the discussion of measures affecting the half world of long.

"One day I found a set of resolutions from the Church Federation on my desk when I came to the office," said the Mayor. "I waited two weeks to meet the committee that had drafted them, but none came. Then I published the resolutions, and printed a list of committeemen, who, I said, called on me and urged the adoption of the resolutions."

"I never saw any committee, and I have not learned to this day how those resolutions came to my office."

The Mayor says that he has heard reports of reforms urged by the Church Federation, but that his information has come chiefly through the press. "I believe that if I show most of the Chief of Police and a committee from the Church Federation, and we should all have an informal talk over existing conditions, we should come to an understanding that would enable us to work more in harmony."

Those advances on the part of the administration toward the Church Federation are attributed at the City Hall to the influence of the Mayor's brother, the Rev. Mr. Harper, who has begun to play an important part in municipal politics. The Mayor's brother is very desirous that there shall be no breach between the chief executive and the members of the Church Federation.

The sudden turning back of the Mayor just at the time when he appeared to be walking blindly into the arms of the Church Federation has created some lively discussions at the City Hall. After the meeting of the Police Commission Tuesday there were rumors about that at an executive session the Mayor had placed his veto on at least three pet schemes of the liquor interests.

Monday afternoon there was a long conference behind closed doors between the Mayor and Councilman Wallace. It is a matter of current report that at this conference there was a discussion of a license on cigar stores and, possibly, an early increase in saloon license.

Fire Commissioner Schwamm says the talk is all occasioned by the Mayor's policy of walking in the middle of the road. "He isn't a long hair, and he isn't a saloon man," says Schwamm. "There isn't any class of men that controls the Mayor. You watch him; he's a great big man, bigger than some people think."

ASK EARLY DECISION.

FOR AGRICULTURAL PARK.

Councilmen and members of the park board are taking a lively interest in the litigation over Agricultural Park. Yesterday several city officials headed a petition asking that the hearing of the case now before the Supreme Court be advanced to the present month. The petition recites that the case is one in which the people of the city and county are vitally interested, and that the use of the park by the public is a question of the utmost urgency and public necessity.

The case before the Supreme Court is a litigation between the board of directors of the Sixth District Park Association appointed by the Governor of the State in accordance with a State statute and a "private board." If the court decides the case in favor of the State board the city may secure the park for a public pleasure resort.

A second petition to the Governor asks that he reappoint J. H. Reynolds and George R. Murdoch to places on the State board. It is proposed to secure the signatures of at least 10,000 electors of the city and county to each of these petitions.

TAINT OF RUBBER.

GARDEN-HOSE CONTROVERSY.

The present administration has succeeded no better than its predecessors in its attempts to buy hose for department use without injecting politics into the consideration of the bids. The purchase of garden hose for use in the parks has attained political significance at the City Hall.

Two weeks ago the Council opened bids for 5000 feet of garden hose. The bids of two competitors differed but the tenth of a cent a foot. Soon Councilmen heard that there was a conspiracy back of these offers. Each bid-

der has the support of a strong political following.

Finding itself unable to agree on either bid, the Council referred the whole question to the Park Commission. Yesterday the park board attempted to settle the controversy, but it was so far from the point of view of a committee to consider the bids, and to report back on the quality of hose offered.

FIGHT STILL ON.

INSPECTORS INISTENT.

The health board has made an attempt to enlist the physicians of the city in a crusade against the proposed reduction of force in the health department. A week ago the Council passed an ordinance wiping out seven inspectors in the department.

Fighting for their jobs, these seven inspectors have secured the backing of the department and the health board. Mayor Harper has not yet signed the ordinance abolishing the positions; he said last night that he will not do so until the physicians pass on the question.

A meeting of physicians is to be held on Friday night. The Mayor says that if the doctors are unanimous in the opinion that the present health force should not be reduced he will veto the ordinance; otherwise he will sign it.

SAYS FOREMAN IS RUDE.

DISCOURTEOUS TO VISITORS.

An attempt on the part of the park board to lay off dead wood in the park department has resulted in the preferment of charges against the foreman of Westlake Park by one of the men recently discharged.

Samuel Wakeling, a laborer, has preferred charges with the board against Foreman MacLean, charging him with using rude language to a woman visitor or at the park. Wakeling alleges that he was rebuffed at the time, and that this so angered MacLean that he soon after secured Wakeling's dismissal.

This is but the first outline of the case; the particulars will develop at the next meeting of the park board.

Too Many Restrictions.

Park Superintendent Morley reported to the park board yesterday that Los Angeles places more restrictions about the management of its parks than any other large city in the country. The Park Superintendent has just returned from a trip to the International Convention of Park Superintendents at the University of California, where he learned that in other cities a certain sum is set aside for park maintenance, and the Park Commission spends the money. Here the commission has no such plan, but must refer all matters of expense to the Council. Mr. Morley submitted a report to the board yesterday making a number of minor recommendations for the improvement of the service.

AT THE COURTHOUSE.

CORPORATION FRANKENSTEIN.

CHARGES FAMILY 'MINGLED' IN ITS BUSINESS.

Soulless Company Sues Its Organizers for Alleged "Manipulation of Stock and Wants Over Twelve Thousand Dollars, Claimed Lost, Returned to Its Treasury."

Upon the face of it, here is a corporation which turns upon its organizers and resists them, drag them into court on serious charges, and asserts that it is a family affair for "controlling, manipulating, defrauding and wrecking" it.

The Interstate Mining and Reduction Company filed the suit in the Superior Court yesterday through Attorneys Tilton and Caffor and E. Pinney, the prosecuting witness being Secretary W. A. Wood. The defendants are D. R. Kilbourne, his sons, C. H. and F. A. Kilbourne, his son-in-law, William E. Waddell, and "his best friend," George A. Faxman.

The complaint goes into detail in its charges against the whole Kilbourne family, with the "warm personal friend on the side. It asserts that at the time of the organization, early in 1926, it was agreed that D. R. Kilbourne would finance the organization and put it on a basis to pay dividends without expense to the stockholders.

On account of this complaint instant that D. R. Kilbourne agreed to wipe off all old debts before selling any stock. But the charge is made that upon selling the stock, Kilbourne and Waddell represented that it was clear of debt, while in reality it was not, but the funds received for the stock were used for the old debts.

Even the mines, says the complaint, were not paid for at the time of the stock sale. The complaint claims that \$6000 was lost to the corporation on August 1, 1926.

In a second cause of complaint, the plaintiff states that between May 1, 1926, and July 1, 1926, the defendants, as a board of directors, so "mingled" their own business with that of the corporation that the latter sustained a loss of \$1230.

Another cause of complaint is that the defendants, as directors, delivered to L. A. Newby 100,000 shares of stock at 25 cents a share, but took Newby's note, unsecured, for their money. Further, that Newby sold 15,000 shares to an innocent purchaser, and the company loses \$4500.

On account of this deal the company incurred an expense of \$250 in getting back from Newby the balance of this stock, and that:

"By reason of the wrongful act, carelessness, negligence, mismanagement and fraud upon the part of the defendants," the corporation lost \$4500.

In conclusion, the plaintiff corporation asks for judgment against its organizers for a total on the three counts of \$12,330.

POLICY NOT VIOLATED.

Each side tried something funny in trying to get the best of it yesterday in the Superior Court.

The case is that of William D. Handy against the Northwestern Fire and Marine Insurance Company. The plaintiff is suing to recover \$2500, the amount of the policy upon his house, which was at 2300 Childs avenue, but was burned down on May 22 last.

In defense the company made the claim that, while the policy on the house was correct in most things, it had the house on the east side of the street, while in fact it had stood on the west side, and the attorney for the company urged that, as it was wrong, the company should be freed from liability.

But Judge Conroy made the impor-

tant decision that, even if there was an error in the policy, it was due to the agent of the company in writing it, and consequently the company was liable so far as this error is concerned. This decision will prove of considerable interest to insurance companies.

On the other hand, Handy submitted in evidence certain plans and specifications tending to show that the house cost \$700 to build. But on cross-examination, he acknowledged that the specifications were drawn after the house was burned. The case is still in progress.

POOR TESTIMONY.

LAWYER FACES ACCUSERS. To believe an acknowledged perjurer or to weave the legal threads into a net to hold Attorney W. J. Danford for trial in a higher court—this is the problem Justice J. W. Summerfield has before him and the indications are that the legal threads as spun by Deputy Dist. Atty. John North will have to be used to prevent escape through some unforeseen mesh.

Attorney Danford was before Justice Summerfield, sitting in Justice Solph's township court, yesterday, for his preliminary examination on a charge of subornation of perjury in causing a client, Harry Drake, to swear falsely in a civil suit in the Superior Court on June 4 last. Drake was the principal witness against his former attorney yesterday.

The witness went over the old story of the suit and today Attorney Danford had coached him what to testify to at the trial. There was clash after clash between L. C. Compie Davis and Judd Rush, attorneys for Danford, and North, almost from beginning to end, and the entire examination was consequently a lively one.

Davis wanted the witness to understand that he was on the direct road to the penitentiary in giving the testimony he did. North objected on the ground that Davis was trying to intimidate the witness and asked that Justice Summerfield ask what immunity had been promised him and he remonstrated at the time, and that District Attorney had promised him complete immunity. A date will be set for a continuation of the hearing.

WHAT IS BEER?

CAN IT BE BOOZE?

The world waits breathless for Justice Stephens to decide whether beer is booze or not. The issue was raised yesterday in the trial of P. J. Flynn of Sawtelle.

Flynn is the man who ran the Sawtelle Social Club, at which old soldiers filled up with liquor in violation of the law. Can he escape under the statute forbidding liquor to be sold or given away within a mile and a half of a Soldier's Home?

Deputy Dist. Atty. Paul J. McCorker introduced testimony to show that Flynn had sold liquor at his place and the very this dispute of an admission to his "social club." Flynn's counsel, Paul Schenck, raised the question, however, that no evidence had been introduced to prove that beer is an intoxicating liquor. The court is waiting for a continuation of the trial for the District Attorney to bring in a chemist today.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.

CARE OF SICK. Articles of incorporation were filed yesterday by the Fraternal Brotherhood Hospital Association with a capital stock of \$200,000, of which \$150,000 has been subscribed. The trustees are R. D. Ladd, W. H. Seelye, George L. Keefe, Dr. W. J. Haney, John R. Matthews, W. R. Montgomery, Z. B. West, Glenn C. Seelye and H. C. Hubbard. The object of the association is to build and acquire buildings for hospitals, sanitariums and homes for sick and disabled persons, particularly members of the Fraternal Brotherhood lodge.

DEAD WIRE. LIVE WOMAN. Mary M. Winslow of Glendale began her suit in the Superior Court yesterday against the Glendale Light and Power Company for \$10,000 damages and \$200 expenses for injuries received from tripping over a wire stretched across the sidewalk on Glendale avenue in that city. The accident happened February 22 last and in her complaint Mrs. Winslow claims the muscles of her left leg were ruptured and that she was made lame and otherwise badly hurt.

NEW WATER COMPANY. The Chico Domestic Water Company filed articles of incorporation yesterday with a capital stock of \$200,000, of which \$150,000 is subscribed. The directors are Ralph Bandini, Joseph P. Loeb and W. S. White.

HIS ALASKAN FROST. W. I. Warner, an Alaskan prospector and owner of mines, fisheries and coal lands, began suit in the Superior Court yesterday to recover from F. J. Johnston and W. S. Taylor of Los Angeles \$5,000 shares each of the Alaska Peninsula Mining and Trading Company. The plaintiff claims that the defendants secured their stock by a trick and refused to pay for it, consequently his development work in Alaska suffered. He asks for a restraining order preventing the disposal of this stock and its return to the treasury of the company.

EXTENSIVE POWERS. Articles of incorporation were filed yesterday by the Board Construction Company yesterday with a capital of \$50,000, of which \$200 is subscribed. The corporation claims extensive powers to do almost anything legal, including the operation of

gas, electric and ice plants, pipe-lines and bonds. The trustees are Elmer L. Moody, J. S. Noyes, Blanche L. Warren, H. G. Simpson and C. M. Simpson, all of Pasadena.

HAS A PATENT. For the purpose of exploiting a patent on the Starr Clutch Company yesterday filed articles of incorporation with a capital stock of \$100,000, of which \$700 has been subscribed. The trustees are A. M. Smith, C. H. Harwood, C. M. Smith, F. D. Howell, L. Blay, Fred Starr and Edwin F. Hahn.

SUPS TO SELL STOCK. The Mann-Field Mining and Development Company began suit yesterday against Marvin E. Ish to force the sale of \$25,000 shares of its stock, which it is claimed, he agreed to take for \$70,000. The mine is near Goldfield and arrangements had been made to transport this stock to Los Angeles but he refused to take it.

WANTS BUILDING BACK. Suit was begun in the Superior Court yesterday by the Venice Rink Company to recover the building from C. A. Dunnivant, to recover \$150 for rent and to have the lease canceled. The ground of the petition making summary judgment was that at the last month he refused to take it.

THE INFERIOR COURTS.

Mail Collector Accused of Entertaining Bugs in Lodging-house—Beer Thrown on Officer's Clothes.

Charged with having permitted bugs of all kinds and descriptions to congregate in the hallways and bedrooms of his apartment house at No. 282 East Fifth street, Y. R. Rittman, contractor for the collection of the Los Angeles mail, was arraigned in the Police Court yesterday.

Rittman entered a plea of not guilty to the bug charge, but when charged with entertaining a lodging house without a license, he admitted his guilt, and was fined \$10.

The charges relating to the bugs may not be pressed if Rittman indulges in house cleaning.

Complaints were filed by a dozen of the younger men who live at the lodging house.

A new ordinance makes it a misdemeanor for the proprietor of a lodging house to allow bugs to congregate in the rooms of his lodgers.

Beer Wasted.

Charged with having poured beer over the fine new uniform of Police Sergeant Benedict of the University District, James Cain was tried in the Police Court yesterday.

Cain attended the German celebration at Chutes Park Tuesday. He drank several steins of beer and became excited. When Sergeant Benedict ordered him to leave the park, Cain threw beer over the sergeant's new uniform. He was fined \$10.

New Town of Corcoran.

Kings county, Cal. now on the map, surrounded by several hundred thousand acres highly productive land, grows wheat, sugar alfalfa, vineyards and fruit, in one of the best-watered sections of the State. One of the best sugar beet factors now being built there by Pacific Sugar Company. Investigate now.

Security Land & Loan Company, owners, Newport & Milner general agents, 261 South Spring street.

Buy Land.

20,000 acres selected lands at Corcoran, Kings county, proven unsurpassed for raising cattle, alfalfa, grain and fruit. 25 per acre and up. Abundance of water for irrigation. Healthy climate; near town, close to railroad. Several hundred thousand dollars being expended in improvements. Make value and profit assured.

SECURITY LAND & LOAN COMPANY, Newport & Milner general agents, 261 S. Spring st.

"PLUFFY RUFFLES" well-known throughout the West, will make her appearance in Los Angeles on October 25.

THIS DOG FAITHFUL.

A faithful bulldog is credited with saving the lives of Harry Newcomb and his two little children, on a ranch in Aravaipa Canon, Pinal county, at the time of a late flood in Aravaipa Creek. All were sleeping soundly out of doors when the building jumped upon his master's cot, only to be driven away by the man. At the fourth attempt, Newcomb became convinced that something was wrong or else the dog had gone crazy. As he sat up, upon the side of the cot, his feet splashed in water. Rushing over to his children's bed, he gathered them up and hurried to high ground in the near vicinity. Within fifteen minutes the water had torn away the home and was at flood height over the spot where the family had been sleeping.

Although the capacity of the Territorial Insane Asylum is supposed to be 250 patients, the institution now is caring for 300. From many counties patients are sent who are suffering from nothing more than delirium tremens. These are being refused, and, as well, all aliens who can be deported.

The Territorial penitentiary at Yuma is too small for its guests. There are now 300 in prison, and this number will probably be raised to 400, at least, a third of which the penitentiary will be unable to accommodate.

The fair is now about to open for the third time, the enterprise having been successful beyond sanguine hopes. But a number of subscribers to the fund have become lukewarm; so the Fair Association has begun to issue some who have been slow in putting up the money subscribed.

The Arizona members of the United Fraternity, a couple of years ago, are much excited over their treatment in the consolidated organization, which have been holding indignation meetings, presenting their case to George F. Carstairs, manager for the Pacific and Southwestern district. They allege that they are being overtaxed for their insurance, and from their own members only death claims are being paid, while they are credited with no new members, thus establishing an insurance condition which soon would fall of its own weight.

The general prosperity pervading this locality is illustrated by the fact that in September thirty-seven marriage licenses were issued by the Clerk of the Probate Court.

Mrs. L. Gardiner, a Phoenix woman already notable for her success in the rearing of Shetland ponies, has imported ten thoroughbred milk goats from Switzerland, with the expectation of establishing an industry that will become profitable. The Swiss goats for generations have been bred for milking qualities, and the product is considered far more healthful than is cow milk.

J. A. Jenkens, who has been acting for the summer as private secretary for Gov. Kibbe, has been appointed deputy clerk of the local District Court. Charity in most practical form has been shown by the Salvation Army, which has taken in charge of Frederic Morales, a blind convict just released from the Territorial prison, who is to be maintained in an institution for the blind in Chicago.

GREAT REACH OF STEEL. WHERE TREADS IRON HORSE. SPECIAL CORRESPONDENCE OF THE L. A. TIMES.

TUCSON (Ariz.) Oct. 9.—It is little appreciated that the mileage of the Randolph road in the Southwest, administered from office at Tucson, is equal to the distance of the Southern Pacific from San Francisco to Tucson, or on the Central Pacific from San Francisco to Ogden, namely, 350 miles. This is divided thus: Sonora Railroad, 250 miles; Cananea, Yaqui River and Pacific, 250 miles, including 100 miles not yet opened for regular traffic; Gila Valley, Globe and Northern Railroad, 125 miles; Phoenix and Eastern Railroad, 50 miles; Maricopa branch, 40 miles; Cananea Railroad, 35 miles; Arizona and Colorado Railroad, 25 miles. Altogether on these roads are eighty engines and 400 cars.

DOWN BELOW BORDER. The extension of the Cananea, Yaqui River and Pacific Railroad is now generally called the Guadalupe Railroad, to parallel the west shore of Mexico, and to furnish communication between the Mexican capital and the northern and western parts of the republic. Its construction will be extremely difficult, the uplands above Mazatlan to be reached by means of a series of switchbacks, constructed along the side of a historic barranca, through which, centuries ago, plodded the mule train that bore the silver bars of the Orient across to Vera Cruz, to be transhipped to enrich the crown of Spain.

About 500 men are working on the Guadalupe end of the road. This force will be increased very soon to 2000, but there seems to be little idea as to when the line will be completed. Altogether on these Western Mexican roads of the Southern Pacific are now working 500 men, most of them on the line southeast of Guaymas, where the grade has been extended as far as the Puerto River. On the branch being constructed along the Yaqui River to Nacozari, 1500 men are working and are more or less grading between Cananea and Nogales. New shops are being built at Empalme, the junction point of the Sonora road with the Cananea, Yaqui River and Pacific, nine miles below Guaymas. The shops will be even larger than those at Tucson, and will employ 1500 men.

Apparently the least important road of the Arizona system is the Arizona and Colorado, which connects the mine

BEAUTY DOCTOR

A Simple Mixture Said to Work Wonders on the Complexion. Prepared at Home.

Some women are very vain and others have little vanity, but all without exception are desirous of possessing a good complexion.

Many women succeed admirably with artificial beautifiers, such as rouge and powders, for the evening toilet, but this imitation beauty will not stand the glare of broad daylight and when used in the daytime produces a ludicrous, smoky appearance.

A prominent society lady, who has just returned from a long sojourn in Europe, brings back with her the recipe which she claims is the secret of the French women's beauty, notorious throughout the world, but which consists of an exquisite complexion.

The recipe is as follows: Two ounces of Rose Water, one ounce of Spirits of Cologne, four ounces of Sarsaparilla (crystallized).

Put the Sarsaparilla in a pint of hot water, soft water preferred, and after it is dissolved and cooled strain it through a fine cloth and add the Rose Water and Spirits of Cologne. This is to be used daily and thoroughly massaged into the skin. This treatment, if persisted in, is said to work wonders on even the worst complexions. The ingredients can be gotten at any drug store. The above formula will make sufficient for a thorough test.

A few years ago there was an enthusiastic craze subscribed freely toward a fund for the establishment of a Territorial fair. The fair is now about to open for the third time, the enterprise having been successful beyond sanguine hopes. But a number of subscribers to the fund have become lukewarm; so the Fair Association has begun to issue some who have been slow in putting up the money subscribed.

The Arizona members of the United Fraternity, a couple of years ago, are much excited over their treatment in the consolidated organization, which have been holding indignation meetings, presenting their case to George F. Carstairs, manager for the Pacific and Southwestern district. They allege that they are being overtaxed for their insurance, and from their own members only death claims are being paid, while they are credited with no new members, thus establishing an insurance condition which soon would fall of its own weight.

The general prosperity pervading this locality is illustrated by the fact that in September thirty-seven marriage licenses were issued by the Clerk of the Probate Court.

Mrs. L. Gardiner, a Phoenix woman already notable for her success in the rearing of Shetland ponies, has imported ten thoroughbred milk goats from Switzerland, with the expectation of establishing an industry that will become profitable. The Swiss goats for generations have been bred for milking qualities, and the product is considered far more healthful than is cow milk.

J. A. Jenkens, who has been acting for the summer as private secretary for Gov. Kibbe, has been appointed deputy clerk of the local District Court. GREAT REACH OF STEEL. WHERE TREADS IRON HORSE. SPECIAL CORRESPONDENCE OF THE L. A. TIMES.

TUCSON (Ariz.) Oct. 9.—It is little appreciated that the mileage of the Randolph road in the Southwest, administered from office at Tucson, is equal to the distance of the Southern Pacific from San Francisco to Tucson, or on the Central Pacific from San Francisco to Ogden, namely, 350 miles. This is divided thus: Sonora Railroad, 250 miles; Cananea, Yaqui River and Pacific, 250 miles, including 100 miles not yet opened for regular traffic; Gila Valley, Globe and Northern Railroad, 125 miles; Phoenix and Eastern Railroad, 50 miles; Maricopa branch, 40 miles; Cananea Railroad, 35 miles; Arizona and Colorado Railroad, 25 miles. Altogether on these roads are eighty engines and 400 cars.

DOWN BELOW BORDER. The extension of the Cananea, Yaqui River and Pacific Railroad is now generally called the Guadalupe Railroad, to parallel the west shore of Mexico, and to furnish communication between the Mexican capital and the northern and western parts of the republic. Its construction will be extremely difficult, the uplands above Mazatlan to be reached by means of a series of switchbacks, constructed along the side of a historic barranca, through which, centuries ago, plodded the mule train that bore the silver bars of the Orient across to Vera Cruz, to be transhipped to enrich the crown of Spain.

About 500 men are working on the Guadalupe end of the road. This force will be increased very soon to 2000, but there seems to be little idea as to when the line will be completed. Altogether on these Western Mexican roads of the Southern Pacific are now working 500 men, most of them on the line southeast of Guaymas, where the grade has been extended as far as the Puerto River. On the branch being constructed along the Yaqui River to Nacozari, 1500 men are working and are more or less grading between Cananea and Nogales. New shops are being built at Empalme, the junction point of the Sonora road with the Cananea, Yaqui River and Pacific, nine miles below Guaymas. The shops will be even larger than those at Tucson, and will employ 1500 men.

Apparently the least important road of the Arizona system is the Arizona and Colorado, which connects the mine

camp of Pierce with the Southern Pacific station of Cochise. Yet it is planned to extend this road southward into Mexico and northward through Arizona and New Mexico, to a terminus in Colorado at Durango.

James Finley, for five years master car builder for the Southern Pacific shops at Los Angeles, has returned to Tucson, his old home, to become master car builder for the Randolph line, with supervision over all shops, including the new shops at Empalme.

F. M. Worthington, assistant superintendent of the Tucson division of the Southern Pacific, has been promoted to be superintendent of the San Joaquin division in California, with headquarters at Bakersfield, succeeding D. Burkhalter, another former Tucson man, who has gone to the Sacramento division. A. P. Bowles, late train master on the San Joaquin division, has been appointed to succeed Mr. Worthington in this city.

R. R. Herbert, Southern Pacific ticket clerk in the uptown office in this city, has been assigned to a position of weeks, and is understood to be a defector to the extent of at least \$200, secured by a bond with the National Surety Company. His accounts have been worked over by auditors, and it is stated that evidence has been found where Herbert has not accounted for scores of tickets sales. He has been in office only since July 1, coming here from Los Angeles, and letters of recommendation showing him to have worked on a number of railroad lines in California and in the East. Though he was not considered a "high roller," he lived well and appeared to spend more than his legitimate income. He gained weight in the night by reporting he was starting on a hunting trip in the Catalina Mountains. It is believed he went to Mexico, and that he is heading for Central America.

The Southern Pacific is putting into service the new freight engine of the heaviest class, on the division between Lordsburg and Tucson.

WE UNDER-SELL ALL

R. D. BRONSON

342 SOUTH SPRING ST.

Auction

Of Entire Furniture of 30 Rooms

Thursday, Oct. 10th

At 10 a.m. At 419 S. Main St., consisting of Mahogany, birds and oak dressers and bedsteads, brass and iron bedsteads, polished oak rockers and center table, couches, lawn furniture and porcelains. Brumby carpets and rugs, wardrobes, stove, toilet ware, dining room, kitchen furniture etc. Above goods will be sold in lots to suit purchasers. C. M. STEVENS, Auctioneer. Office 205 Tate Building, both phones.

Auction

318 N. Fickett St., (Boyle High) Saturday, Oct. 12th

At 10 a.m. Entire furnishings of an 8-room residence, consisting of: 2 bedrooms, 2 bathrooms, 2 closets, 2 cupboards, 2 beds, 2 spring mattresses, bedding, lace curtains, pedestal extension table, dining chairs, sideboard, couch, velvet, armchair, Brussels and tapestry art squares, rug, refrigerator, lawn mower, one range, kitchen table, etc. etc. Take East First street or Broadway avenue cars. RHOADES & RHOADES, Auctioneers. Office 120 S. Spring St.

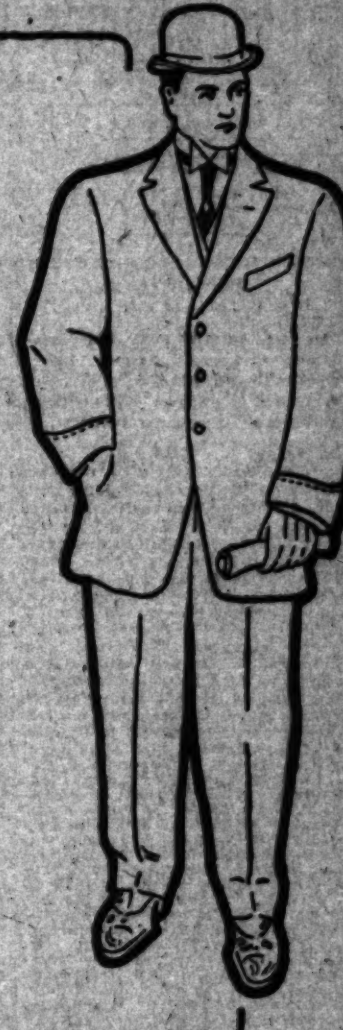

The Power of Money

Being wide awake and constantly on the lookout for every opportunity that will be of advantage to our customers, we have bought for spot cash the entire line of high-class sample suits from one of the leading makers of men's clothes in New York. The suits have just arrived by express and go on sale this morning at \$24.50 instead of \$35, \$40, or \$50.

Extraordinary Sale of 100 High-Class Sample SUITS FOR MEN \$24.50 Regular \$35.00, \$40.00 and \$50.00 Values

Every suit in the lot is a masterpiece of tailoring. The patterns are all exclusive, and include the popular new shades for fall wear. The garments are strictly hand tailored and faultlessly finished in every detail—high-class linings, silk worked button holes and all the little touches of correctness that distinguish these suits from the ordinary kind. Absolutely the finest ready-to-wear clothing in Los Angeles—we make no exceptions. If you can find any better suits anywhere at \$35, \$40 or \$50, you can have your money back. You'll have to step lively if you want one of these, for the number is limited and such suits as these can't wait long for buyers at \$24.50. Sale begins this morning.

Souman & Co. 131 SO. SPRING ST.

SIX MILLION BARRELS OF OIL

Is the reported shortage of requirements in the California oil fields for 1907. We are convinced that we have this six million barrels of oil as well as many more

Millions of Barrels Under the Forty Square Miles ...Of Oil Land That We Control in the...

Great Virgin River Oilfield of Utah and Arizona

It is for quick development to get this oil ready for a waiting market at high prices that we are offering a small block of Interstate Oil Company's stock at

Very Attractive Prices

Production and Demand

It is a matter of record that the production in the extensive Pennsylvania oil fields, where petroleum was originally discovered, is falling off very rapidly, while the great Russian fields to which the European countries have looked for their supply, are rapidly being depleted, and the production is rapidly failing in all of the older worked fields.

The British navy has just adopted oil for fuel for its entire fleet, while Japan is using it extensively for the same purpose, they purchasing the same from California producers, and it is very evident that the United States navy, which has for a long time been experimenting with this fuel, will soon adopt its use instead of coal.

Nearly all western and southern railroads are now using or preparing to use it for fuel in their locomotives, the Salt Lake and Union Pacific Railroads being the latest to adopt its use, and contract for large supplies.

It is quite evident that the larger proportion of the enormous quantity of oil required for domestic and foreign uses must come from the Pacific Slope.

Call, write or telephone for a copy of our prospectus and be convinced that we are offering you an unusual opportunity to invest in a business that may increase rapidly in value and create for you a permanent income.

Patent tips, lace style with university last; well sewed oak sole, slight extension edge, medium heels; all sizes.

Three Busy Days—Genuine Whirlwind of Bargains—The Entire Los Angeles County Represented Among the Purchasers.

There has never been a sale in Los Angeles that has "caught on" like this one; nor has there ever been one of such magnitude. It is such a public known fact that our "new store" is not completed and that many of our preparations were made to get in there this fall and our buyers bought their stocks accordingly so we must make extreme effort to unload this half-million of dollars worth of merchandise for we actually have not store room or show room space and are satisfied to lose a big portion of our contemplated profits to get the stocks down into normal shape.

Tapestry Brussels Carpet Yard 79c

BOUGHT TO SELL FOR \$1.00

The standard carpet for wear; has all the appearance of body Brussels, and in patterns and colorings that will harmonize nicely with the furnishing of any room.

Wool Ingrain Carpet 59c

BOUGHT TO SELL FOR 75c

36 inches wide; pretty reversible patterns; good colors, a grade that will give exceptionally good wear.

Wool Mixed Blankets, Pair \$2.39

BOUGHT TO SELL AT \$3.50

As fine and closely woven as shown in other stores at \$4.00; just enough cotton to prevent shrinking and have blue or pink borders and white silk binding at ends.

Brussels Tapestry Rugs \$11.95

BOUGHT TO SELL FOR \$15.00

3 feet 3 inches by 10 feet 6 inches; the kind generally used in bedrooms; are very popular and serviceable, yet inexpensive; 12 patterns to select from.

11-4 Cotton Blankets

BOUGHT TO SELL FOR \$1.25

Well woven, full double bed size; have long, soft, fleecy nap; choice of gray, brown or white.

Pair California Wool Blankets \$6.95

BOUGHT TO SELL FOR \$8.50

Every thread genuine California lamb's wool; soft, warm and serviceable; long, fluffy nap; blue or pink borders.

Floor Oil Cloth Square Yard 29c

BOUGHT TO SELL FOR 50c

Finest, heaviest quality of floor oil cloth in the very latest patterns and colorings; 1, 1½ and 2 yards wide; almost as good as linoleum.

Pro-Brussels Rugs \$7.95

BOUGHT TO SELL FOR \$10.50

9x13 feet, size for any ordinary room; copies of the best Brussels; very heavy; lay flat on the floor; choice patterns and colors.

12x15 Axminster Rugs \$30.00

BOUGHT TO SELL FOR \$40.00

Large enough for any room, and if sold as carpet by the yard would cost you at least \$50.00; very handsome line of colors and patterns.

Sanitary Cotton Blankets \$1.75

BOUGHT TO SELL FOR \$2.50

Finest grades of all-cotton blankets; wool finished; close nap; looks equal to the best all-wool goods; choice of white or gray.

Large Cotton Comforters \$1.35

BOUGHT TO SELL AT \$1.50

A small reduction in price on standard merchandise, which you will appreciate; filled with one sheet pure white cotton, covered with a good quality silkline in selected colorings and patterns.

Closing Out Basement Furniture

Including Floor Stock and "New Store" Goods

The Toy Department is crowding us for basement space, and the entire furniture must soon be moved to another floor for much more limited quarters, so we are grouped floor samples from our regular stock, as well as samples of new furniture purchased for the "New Store," and must be closed out at once, and the price will be so great that you cannot hesitate to purchase.

Sample Furniture 20 Per Cent. Off

This assortment includes couches, oak dressers, maple dressers, chiffoniers, tables, parlor tables, dining chairs and rockers—our entire stock of floor samples of the former selling prices, offered Thursday at 20 per cent. off our regular prices—and, remember, not inflated values.

Fine Enamel Beds \$7.50

BOUGHT TO SELL UP TO \$12.50

Very selected lot; one or two of a kind; enamel beds—white, ivory, green and "Vernis Martin" finish; all of heavy tubing, with large fancy chills.

Finest Enamel Beds \$15.00

BOUGHT TO SELL FOR \$25.00

Several handsome patterns of "Vernis Martin" finish; also mat green and ivory beds in antique chills; all the very finest productions, and bought to sell up to \$25.00.

"New Store" Sale

Table Silverware

WE CAN SUPPLY ALL YOUR NEEDS AT A SAVING OF ONE-THIRD TO ONE-HALF
